

05/10/2022

The screenshot shows the GitHub homepage in a web browser. The browser's address bar displays 'github.com'. The page header includes navigation links for 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. A search bar is located on the left. The main content area is titled 'The home for all developers — including you.' and features several cards for getting started, such as 'Start a new repository', 'Create your profile README', and 'Contribute to an existing repository'. On the right, there is a sidebar with a user profile dropdown menu showing 'Signed in as Fercbtis75' and options like 'Set status', 'Your profile', 'Your repositories', etc. Below the sidebar, there are sections for 'Universe 2022' and 'GitHub Copilot'. The bottom of the page shows a Windows taskbar with various application icons and a system clock indicating 07:53 a.m. on 05/10/2022.

The screenshot shows the GitHub Desktop application interface. The main window is titled 'Let's get started!' and contains several buttons for adding a repository: 'Create a tutorial repository...', 'Clone a repository from the Internet...', 'Create a New Repository on your hard drive...', and 'Add an Existing Repository from your hard drive...'. A search bar for 'Filter your repositories' is also present. On the left, there is a sidebar with a list of repositories, including 'GitHub', 'Autorizar la aplicación', 'Forgot your password?', '¿Ha olvidado su contraseña?', and 'OAuth application authorized'. The bottom of the window shows a Windows taskbar with various application icons and a system clock indicating 07:45 a.m. on 05/10/2022.
